

A photograph of a panel discussion at a conference. Four men are seated at a long table on a stage, facing an audience. The man on the far left is speaking, with his hands clasped. The other three men are listening attentively. On the table in front of them are water bottles and coffee cups. In the background, a large screen displays text, including "Vicbullet (2015 America's Safest Companies winner)" and "safetyleadershipconference.com". To the right of the panel, a podium features the logo for "EHS Today Safety Leadership CONFERENCE". The audience is visible in the foreground, seen from behind.

# Final Thoughts

1. Safety is more than just a job! Don't become complacent, each new day brings new opportunities to reduce risk.
2. Get on the agenda! We need to be eating at the big table. Senior Leadership needs to hear our success stories and the value that we add protecting our employees AND the Company.
3. Communications! Spend more time with employees. They are the ones that know the risk of their job task and they have ideas on how to reduce those risks.
4. Fatalities may seem like a possibility, but I found out the hard way, they are a reality.
